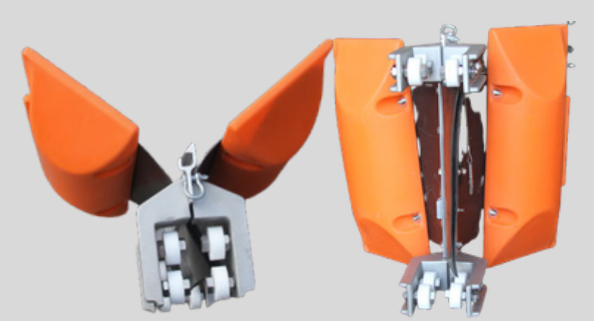
MARINE ACCESSORIES

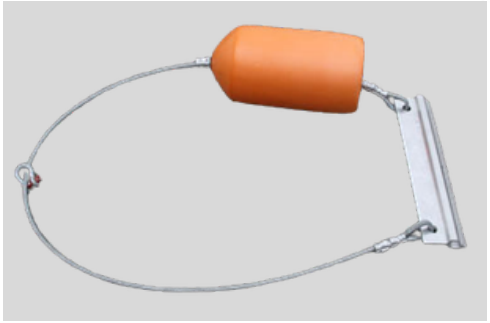
Tidal Compensator

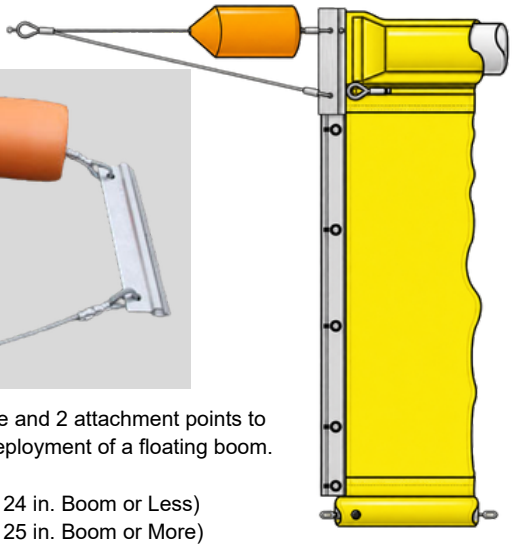


Designed to help floating silt barriers or booms self-adjust with changing water tides to ensure they stay in place.

Works with I-beams.
Size: 18, 24, 36 in.

Tow Bridle





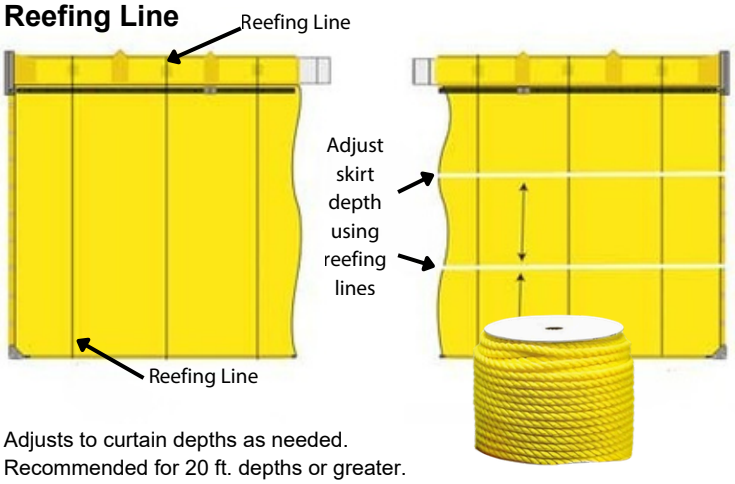
Includes: Small flotation device and 2 attachment points to help with the installation and deployment of a floating boom.

Small:	12 in.
Medium:	18 in. (for 24 in. Boom or Less)
Large:	24 in. (for 25 in. Boom or More)
Heavy Duty Small:	24 in.
Heavy Duty Large:	36 in.

Buoys (Inflatable and Hardshell)

Our marine buoys feature the industry's strongest rope eye and an innovative protected single-valve system for easy inflation, deflation, and leak prevention. Available in a variety of colors and sizes and built to exceed the rigorous demands of the commercial marine industry.

Reefing Line



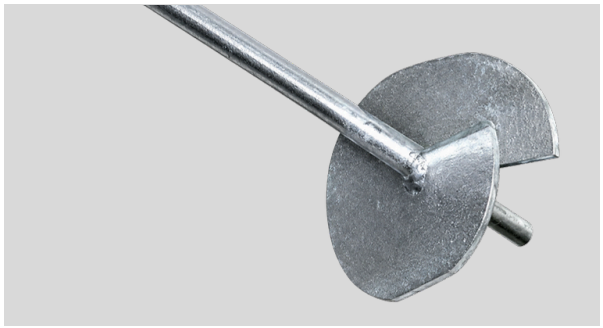
Adjusts to curtain depths as needed.
Recommended for 20 ft. depths or greater.

Marker Light

A great way to increase visibility of a barrier in any given location. Includes a buoy, light and pole to keep the light afloat next to the boom.

Size:	10 in. x 50 in.
Weight:	0.62 lb. (280 g.)
Visibility:	3.75 miles (6 km)
Battery:	(2) D Cell Batteries *(30 Day Battery Life.)*

Auger Anchor System



Anchor:	6 in. Auger Style Screw
Rope:	60 ft. of 1/2 in. Nylon Rope
Chain:	8 ft. of 3/8 in. Leader Chain
Buoy:	Hard Shell
Paint Liner:	6 ft. of 1/2 in. Twisted Nylon
